RANGER 5 MINI

Pages 4-5

AMERICA'S PIONEER AND LEADER IN SOUND SUPPRESSION

Advanced Armament Company consists of passionate innovators driven by a culture of continuous improvement and a commitment to deliver the most-effective silencers and defense products.

Superior science, engineering and design is the foundation of our rugged, lightweight and adaptable silencers. Ranging from rimfire to 50 BMG, we develop products tailored to the most-popular platforms and calibers. Our passion for perfection ensures we deliver the best silencers and defense products to support the missions of our military, law enforcement, and civilian consumers.

NEW FOR 2024

RANGER 5 MINI

SMALL BUT VERY EFFECTIVE.

The Advanced Armament Ranger 5 Mini is an ultra-compact silencer for CQC rifles and carbines chambered in .223/5.56. It's fully-welded Inconel 718 and 17-4 Stainless Steel baffles provides durability on short barrels and under intensive schedules of fire. Now with overbore baffles for 6mm and HUB threads, the suppressor can be installed and removed in seconds to your favorite mounting system. Although it's made for a very compact footprint, it significantly reduces the sound and flash signatures. On 10.3" or longer barrels, it's below the 140-decibel threshold for OSHA safety standards.

CALIBERS	WEIGHT	LENGTH	DIAMETER	MATERIALS	FINISH	REDUCTION
5.56	9.84 oz Without Mount	4.98" Without Mount	1.5"	718 Inconel, 17-4 Stainless Steel	Cerakote	24dB *
6mm Arc						
6mm PRC						
6mm Creedmoor						
1.375 HUB compatible				Removable front end cap		
Oversized bored baffle (6MM) for reduced backpressure				Full Auto Rated		
				MSRP: \$849.99		

* Ships with direct thread mount in 1/2-28 with built in muzzle brake

NEW FOR 2024

ELEMENT 3

A LEGEND REBORN.

The new Element 3 from AAC is a reborn legend in the history of AAC. Once the golden standard for rimfire in suppressors, the Element 3 is an up to date version of the Element legacy. Best in class performance, no first round pop, and rated now for the ever growing 5.7x28 caliber, the Element 3 is sure to exceed all expectations.

CALIBERS	WEIGHT	LENGTH	DIAMETER	MATERIALS	FINISH	ATTACHMENT	REDUCTION
22LR full auto	5.5 oz	5.1"	1.1"	6AL-4V TITNIUM, 17-4 Stainless Steel	PVD	Fixed, single piece 1/2-28 rear mount	43dB *

5.7x28							
No first-round pop				Shielded PVD Coated K-Baffles			
Non-modular Ti tube				MSRP: \$424.99			

* 110dB Right Ear A Weight Ruger Precision CCI Subsonic 40gr 22LR

NEW FOR 2024

ILLUSION 9

MISSION FOCUSED AND BUILT TO ENDURE.

The Illusion is an eccentric design, where the center-point of the silencer sits below the bore axis. Like the Maxim model 1910 silencer, the Advanced Armament Illusion 9 features an offset, non-centralized bullet path. Unlike the Maxims of old, the advanced design of the Illusion 9 incorporates a highly evolved, patent pending A.S.A.P. (Assured Semi Automatic Performance) system that ensures reliable operation on a broad spectrum of self-loading host pistols.

CALIBERS	WEIGHT	LENGTH	DIAMETER	MATERIALS	FINISH	S.P.L
9mm	10.4 oz	7.88"	1.25"	17*4 Stainless Steel, 6061/7075 T-6 Aluminum	Hard Coat Anodized	127dB *

Clears Factory Glock Sights				MSRP: \$849.99		
User Serviceable				* 127 dB with Glock 19 and 124 gr ammo		

NEW FOR 2024

TITAN-QD

338 LAPUA NEVER SOUNDED SO GOOD

The TiTAN-QD model offers shooters the extreme durability necessary for full-time suppression on select large bore rifles. By minimizing the muzzle sound pressure, we here at AAC took progressive steps to preserve the hearing of the end-user, as well as to reduce the signature of the muzzle blast. (Being stealth is always a virtue.) Designated to be the U.S. Army's XM2010 Enhanced Sniper Rifle suppressor of choice, the AAC TiTAN-QD's reputation definitely precedes itself.

CALIBERS		WEIGHT	LENGTH	DIAMETER	MATERIALS	FINISH	REDUCTION
338LM	6.5 Creedmoor	20.0 oz	10"	1.85"	Grade 5 and 9 Titanium	Cerakote	32dB

Ships with Custom Pelican case

MSRP: \$1,699.99

RIFLE

RANGER 5

MISSION FOCUSED AND BUILT TO ENDURE.

This new robust silencer from AAC is engineered for the toughest usage and conditions. With a serviceable front end cap, full-auto compatibility, and an included 1.375-24 mount, the versatile Ranger Series is focused on reliable performance.

CALIBERS	WEIGHT	LENGTH	DIAMETER	MATERIALS	FINISH	ATTACHMENT	REDUCTION
5.56mm	15.2 oz	5.825" With Direct Thread Mount	1.5"	718 Inconel and 17-4 H900 Stainless Steel	High Temp Cerakote	1.375-24 Universal Mount *	32dB

 Removable front end cap	 Oversized baffles and end cap to 6mm
 Full auto rated	 RANGER 5 MSRP: \$899.99

RIFLE

RANGER 7

MISSION FOCUSED AND BUILT TO ENDURE.

This new robust silencer from AAC is engineered for the toughest usage and conditions. With a serviceable front end cap, full-auto compatibility, and an included 1.375-24 mount, the versatile Ranger Series is focused on reliable performance.

CALIBERS	WEIGHT	LENGTH	DIAMETER	MATERIALS	FINISH	ATTACHMENT	REDUCTION
300 Win Mag	17.2 oz	6.75" With Direct Thread Mount	1.5"	718 Inconel and 17-4 H900 Stainless Steel	High Temp Cerakote	1.375-24 Universal Mount *	24dB
308 Win							30dB

 Removable front end cap	 Full auto rated
 • 24dB reduction in 300WM with 26" bolt action • 30dB on a 20" Remington 700 using M80 ammo	 RANGER 7 MSRP: \$899.99

* Ships with direct thread mount in 1/2-28 with built in muzzle brake

* Ships with direct thread mount in 5/8-24 with built in muzzle brake

RIFLE

MK13-SD

The military-chosen Mk13-SD is an ultra-lightweight, fast-attach, high performance sound and flash suppressor engineered for bolt action rifles chambered in 300 Winchester Magnum and 7.62 x 51 mm.

CALIBERS	WEIGHT	LENGTH	DIAMETER	MATERIALS	FINISH	ATTACHMENT	REDUCTION	S.P.L.
300 WIN MAG	15 oz	9.5"	1.5"	Grade 5 & 9 Ti	CeraKote	90T Taper Mount	28-33dB *	133dB *
7.62 X 51MM								

- 

Grade 5 Titanium monolithic baffle core and Grade 9 Titanium tube give the Mk13-SD an improbable weight of 15 ounces, and the durability to withstand the 300 Win Mag muzzle pressures and temperatures
- 

Small size and light weight, it delivers greater sound reduction and accuracy than any similarly-sized competing model. NSN: 1005-01-599-7024

MK13-SD MSRP: \$1,149.99

* 20" Remington 700 300 Win Mag, Remington 180 Grain Core-Lokt + PSP

RIMFIRE

HALCYON

THE JOY OF SHOOTING. RADICALLY REDESIGNED.

The new Halcyon from AAC is everything you want from a rimfire silencer and nothing you don't. Go from long to short configurations in seconds, and easily disassemble without any tools required. No smoke, no mirrors, no unfounded claims — best in class, period.

CALIBERS	WEIGHT	LENGTH	DIAMETER	MATERIALS	FINISH	ATTACHMENT	REDUCTION	SOUND PRESSURE LEVEL
17 HMR	Full	Full	1.0"	17-4PH T6, Titanium	Black PVD	Direct Thread	42dB *	114dB *
22 Long Rifle	6.4 oz	5.8"						
22 Win Mag	Compact	Compact						
5.7x28mm	4.5 oz	3.41"						

 Overbuilt for maximum performance and durability without the excess weight

 Features indexed, shielded Titanium K-baffles

 Modular design is 22 LR full-auto rated, 5.7 rated

 **HALCYON MSRP: \$449.00**

* Walther P-22, Remington Standard Velocity

PISTOL

TI-RANT 9M-HD

ONE TAX STAMP. TWO SILENCER CONFIGURATIONS.

AAC's standard-setting 9mm pistol silencer is back, now in a modular format. With the Ti-RANT 9M-HD, the sweet sound shooters have loved for nearly a decade is now available in a user-configurable design, with no tools required.

Calibers	Weight	Length	Diameter	Materials	Finish	Attachment	Reduction	Sound Pressure Level
9mm Luger	Full 11.3 oz	Full 8"	1.4"	Grade 9 Ti, 17-4 PH SS, 7075-T6	Black PVD	Direct Thread 3-LUG Adapter	Full 32dB *	Full 124dB *
22 Long Rifle								
300 BLK Sub-Sonic	Compact 9.2 oz	Compact 5.8"					Compact 21dB **	Compact 134dB **
357 Mag								
38 Special								

- Quickly and easily configure from full-sized 8-inch silencer to a 5.8-inch compact model
- Modular design features three front-most advanced 7075-T6 baffles in an easily removable auxiliary baffle module
- First 5 baffles machined from 17-4 PH SS
- No tools needed
- Piston sold separately
- TI-RANT 9M-HD MSRP: \$849.99

* Smith and Wesson M&P 9mm, Rem L9MM9 ** Smith and Wesson M&P 9mm, Rem L9MM9

PISTOL

TI-RANT 45M

FULL OF HIGH QUALITY FEATURES USERS HAVE COME TO EXPECT FROM AAC.

Without the use of tools, you can instantly reconfigure the Ti-RANT 45M from a full sized 9-inch silencer into a 6.9-inch compact model, meaning the best selling silencer for 45 Auto, 44 Mag, and 9mm Luger hosts is now even more versatile.

CALIBERS	WEIGHT	LENGTH	DIAMETER	MATERIALS	FINISH	ATTACHMENT	REDUCTION	SOUND PRESSURE LEVEL				
300 AAC BLK	Full 11 oz	Full 9"	1.4"	Grade 9 Ti, 17-4 PH SS, 7075-T6	Black PVD	Direct Thread 3-LUG Adapter	Full 31dB *	Full 131dB *

22 Long Rifle												

- Modular design features three front-most advanced 7075-T6 baffles in an easily removable auxiliary baffle module
- Entire baffle stack can be easily removed for cleaning and maintenance
- 5/8 x 24 adapter enables users to employ their Ti-RANT 45M on semi-automatic rifles, carbines, and pistols chambered in 300 AAC BLK for the purpose of firing subsonic ammunition
- Optimized for use on 45 Auto hosts, it also provides excellent sound reduction on 9mm, 300 AAC BLK hosts, and 44 Magnum rifles
- No tools needed
- Piston sold separately
- TI-RANT 45M MSRP: \$849.99

* H&K USP Tactical 45, Rem 230gr L45AP4 ** H&K USP Tactical 45, Rem 230gr L45AP4

HUNTING

JAEGER 30

ENGINEERED FOR THE AMERICAN HUNTER.

Ruggedly engineered specifically for hunting and precision shooting applications, the Jaeger 30 delivers the quiet, recoil-reducing edge for real world shooting scenarios in the field and on the range.

CALIBERS	WEIGHT	LENGTH	DIAMETER	MATERIALS	FINISH	ATTACHMENT	REDUCTION	SOUND PRESSURE LEVEL
300 Win Mag	13.9 oz	9.28"	1.47"	Aluminum & Titanium	Hard Coat Anodizing	Direct Thread	32dB	138dB *

NEW FOR 2024

MINI4

Don't let the size fool you, the Mini4 ultra-compact silencer for CQC rifles and carbines is packed with hard-use technology

CALIBERS	WEIGHT	LENGTH	DIAMETER	MATERIALS
5.56 NATO	13.5 oz	5.3"	1.5"	Inconel® 718, 316L SS

FINISH	ATTACHMENT	REDUCTION	S.P.L.
CeraKote	51T Ratchet Taper Mount	22dB *	143dB *

-  Features a fully welded Inconel 718 baffle core and 51T Ratchet Mount
-  Designed to present a compact profile, it significantly reduces the sound and flash signatures of its intended host firearms
-  For best results, use with barrels longer than 14.5"
-  **MINI4 MSRP: \$895.00**

* 14.5" Colt M4 / 10.3" MK18, M855

M4-2000

The M4-2000 is the industry-standard fast-attach silencer for 5.56 NATO hosts. Through a rigorous program of continuous improvement, the M4-2000 has consistently benefited from improvements and innovations that have resulted in a smaller, lighter, and more efficient silencer.

CALIBERS	WEIGHT	LENGTH	DIAMETER	MATERIALS
5.56 NATO	18.2 oz	6.7"	1.5"	Inconel® 718, 316L SS

FINISH	ATTACHMENT	REDUCTION	S.P.L.
CeraKote	51T Ratchet Taper Mount	32dB *	133dB *

-  51T Ratchet Mount enables users to install or remove the M4-2000 in seconds, using an intuitive motion and gross motor skills
-  Extreme durability makes full-time suppressed use a reality on barrels as short as 10"
-  The gold standard in 5.56 NATO sound suppression, and best overall balance of performance and durability
-  **M4-2000 MSRP: \$795.00**

* 14.5" Colt M4, M193

762-SDN-6

The AAC 7.62-SDN-6 is a compact, fast-attach sound and flash suppressor for and 300 AAC Blackout (7.62x35mm) firearms.

CALIBERS	WEIGHT	LENGTH	DIAMETER	MATERIALS
7.62 x 51mm	20.3 oz	7.6"	1.5"	Inconel® 718, 316L SS
300 AAC Blackout				
6.8mm Remington SPC				
5.56 NATO				

FINISH	ATTACHMENT	REDUCTION	S.P.L.
CeraKote	51T Ratchet Taper Mount	25dB *	142dB *
		31dB **	130dB **

- Features a 360-degree fully welded Inconel baffle stack and front-end cap to maximize durability on select fire 7.62mm hosts
 - Optimized for 300 BLK, the 7.62-SDN-6 also functions as a superb multi-caliber suppressor, providing excellent performance on 7.62x51mm, 300 BLK, 6.8 SPC, 6.5 Creedmoor and 5.56 NATO
 - When employed on a 9" MPW in 300 AAC Blackout, the overall SPL of 130 dB with subsonic ammo is as quiet as the legendary 9mm HK MPS-SD
- 762-SDN-6

MSRP: \$895.95

* 14.5" KAC Battle Rifle, M80
** 9" 300 AAC MPW, Remington Subsonic 220 Grain OTFB

RANGER 5 MINI

The Advanced Armament Ranger 5 Mini is an ultra-compact silencer for CQC rifles and carbines chambered in .223/5.56. It's fully-welded Inconel 718 and 17-4 Stainless Steel baffles provides durability on short barrels and under intensive schedules of fire. Although it's made for a very compact footprint, it significantly reduces the sound and flash signatures. On 10.3" or longer barrels, it's below the 140 decibel threshold for OSHA safety standards.

 - Full Auto Rated
- SR-7

MSRP: \$949.00

** MK18 10.3", XM193 ammo

MG-SD

The military-chosen MG-SD is a single-unit solution for reducing the sound, flash and dust signature of belt-fed 7.62 and 5.56 light machine guns. It's engineered from the ground up to handle the unrelenting heat and abrasive blasting from sustained firing, while helping to save lives and preserve hearing in combat.

CALIBERS	WEIGHT	LENGTH	DIAMETER	MATERIALS
5.56 NATO	31 oz	7.6"	2"	316 L SS, Inconel® 625 & 718
7.62 x 51mm				

FINISH	ATTACHMENT	REDUCTION	S.P.L.
CeraKote	Various Via 90T Ratchet Fast-Attach	25dB **	138dB *
		26dB *	

- Features a rugged monolithic core of heat-treated Inconel® 718
 - Core is fully circumferentially welded to the Inconel® outer tube and 316 stainless steel "fast-attach" mount
 - Couples to a Blackout flash hider using AAC's rock-solid, evolutionary, 90-Tooth Ratchet Taper Mount. NSN: 1005-01-599-7029
- MG-SD

MSRP: \$2,295.00

* FN M249, M855
** FN M240B, M80

CYCLOPS

The CYCLOPS is a fast-attach silencer for bolt-action and single-shot rifles chambering the 50 BMG cartridge. Its revolutionary design significantly reduces blast overpressure and environmental disturbance, while reducing sound signatures at the shooter's ear to well below the risk limit associated with permanent hearing loss.

CALIBERS	WEIGHT	LENGTH	DIAMETER	MATERIALS
50 BMG	4 lbs, 15 oz	15.8"	2.5"	4130 Steel

FINISH	ATTACHMENT	REDUCTION	S.P.L.
CeraKote	Various Via 90T Ratchet Fast-Attach	32dB *	137dB *

- Constructed of specially heat-treated, high-strength alloys
 - Hand-welded to withstand the intense pressures of the 50 BMG cartridge
 - Couples to a proprietary high-efficiency muzzle brake that features a scaled-up version of the AAC Ratchet Latch fast-attach system
- CYCLOPS

MSRP: \$2,595.00

* 29" MacMillan TAC-50, M-33 ball measured at shooter's ear

FLASH HIDERS

**51T BLACKOUT
FLASH HIDER**

-  Military chosen and adopted for the past decade
-  Consistently rated as the best flash hider on the market today
-  Available in a wide variety of thread pitches to fit most of today's commercial and military rifles
-  Available in 5.56 and 7.62 hosts

**90T BLACKOUT ACCESSORY
MOUNTING FLASH HIDER**

-  Military chosen and adopted for the past decade
-  Considered one of the most effective small-arms flash hiders in the world
-  Three-prong design all but eliminates visible flash on barrels as short as 10 inches
-  Available for the SR series silencers with 5.56 and 7.62 hosts

**90TV BLACKOUT ACCESSORY
MOUNTING FLASH HIDER**

-  Consistently rated as the best flash hider on the market today
-  Available in 5.56 and 7.62 hosts
-  New No-Ping Design
-  3-points of solid retention

MUZZLE BRAKES

51T AND 90T RATCHET-TAPER BLACKOUT ACCESSORY MOUNTING MUZZLE BRAKE & FLASH HIDER

- BLACKOUT muzzle brake provides excellent recoil mitigation
- Easily install an AAC fast-attach silencer or other accessory to their rifle or carbine
- Available in 51T and 90T Ratchet-Taper configurations for 5.56 and 7.62 hosts

CYCLOPS SILENCER MOUNTING MUZZLE BRAKE

- Designed to dampen recoil and minimize muzzle rise while firing the hard-hitting 50 BMG cartridge
- Architecture facilitates quick and easy installation and removal of an AAC CYCLOPS silencer
- Features a dual chamber design tuned for optimum recoil management and enhanced accuracy

TITAN-QD AND MK13-SD SILENCER MOUNTING MUZZLE BRAKE

- Features mounting architecture to quickly and easily install or remove an AAC TiTAN-QD or Mk13-SD
- Available for precision rifles chambered in 7.62, 300 Win Mag, and .338 Lapua Mag

SPACERS, ADAPTERS AND TOOLS

FIXED BARREL SPACERS

- Replaces the driving spring in the ASAP system, allows safe use of silencers on host firearms with non-moving barrels like pistol caliber carbines

TRIAD 3-LUG ADAPTERS (For Ti-Rant)

- The TRIAD Series are adapters that enable users to install a Ti-RANT Series silencer onto an H&K® MP-5 3-lug barrel or a barrel that has been adapted using a 3-lugged extension made to the same specifications as an H&K factory barrel

BLACKOUT FLASH HIDER INSTALLATION/REMOVAL TOOL

- The BLACKOUT Flash Hider Installation/Removal Tool enables armorers to quickly and easily install and remove a three-prong BLACKOUT flash hider using a 3/8-inch socket wrench

ILLUSION/TI-RANT ASAP ADAPTER PISTONS

- Heat-treated stainless steel construction
- Matte bead-blasted finish
- Engravings identify thread diameter, pitch, and direction of rotation for installation (Left Hand threads or Right Hand threads)

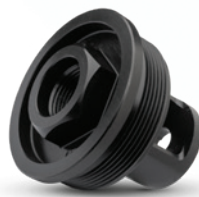

BLAST OUT MUZZLE BREAK

- Designed to dampen and redirect muzzle gases, the BLAST OUT uses 1-3/8-24 HUB socket with a forward taper, and is designed to accept removable AAC fast-attach and direct-thread modular mounting options and front-end caps.

51T S.T.A.M.P. MOUNT

- This fast-attach mounting system is compatible with both legacy and current production 51 Tooth muzzle devices manufactured to AAC specifications.

FLANGE INDEXING DIRECT-THREAD ADAPTERS

- This adapter enables users of modular suppressors featuring industry-standard 1-3/8-24 threaded rear sockets to convert their suppressors to 1/2-28 and 5/8-24 direct-thread configurations.

90TV MOUNT

- 90T Ratchet Mount for extra security
- V-Threads to help secure the mount into the adapter and screws into
- Forward Taper in front of the ACME and Threads to keep carbon from coming back into the threads

LEGAL TERMS

LIMITED LIFETIME WARRANTY

Advanced Armament Company (AAC) silencers and silencer parts manufactured on or after November 1, 2021, are backed by our Limited Lifetime Warranty. Each AAC silencer and silencer part manufactured on or after November 1, 2021, is warranted to be free from defects in materials and craftsmanship for its lifetime. AAC will repair or replace free of charge any silencer or silencer part covered by this warranty that has a defect in materials or craftsmanship. The liability of AAC under this warranty shall be limited solely to the obligation to repair the defect or replace the silencer or silencer part (as determined in AAC's sole discretion) and to pay transportation and insurance charges for return of the silencer or silencer part. This warranty is transferable for the lifetime of the silencer or silencer part.

LIMITATIONS

THIS EXPRESSED LIMITED LIFETIME WARRANTY IS THE ONLY WARRANTY ON AAC SILENCERS AND SILENCER PARTS. AAC SILENCERS AND SILENCER PARTS ARE SOLD "AS IS," AND ANY WARRANTIES IMPLIED BY LAW, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE EXPRESSLY DISCLAIMED.

This Limited Lifetime Warranty does not cover silencers manufactured prior to November 1, 2021. However, as explained below, AAC can service them for a fee.

This warranty **does not cover** ordinary wear and tear or any damage resulting from careless or criminal handling, neglect, corrosion, unauthorized or improper installation or mounting on firearms, unauthorized or improper modifications, including modifications using non-AAC or otherwise incompatible parts, unauthorized or improper repairs or adjustments, use of improper, substandard, reloaded, or defective ammunition, or other unauthorized or unreasonable use of the silencer or silencer part. AAC, in its sole discretion, will determine if a particular issue or condition is covered by this warranty.

Baffle strikes which are not due to a defect in workmanship are not covered by this warranty.

Centerfire rifle caliber silencers are not warranted for use on barrels less than 10.5" in length on "intermediate" rifle cartridges, with the following exceptions:

- Silencers are warranted on barrels as short as 9" for 300 AAC BLACKOUT; and
- Silencers are only warranted on barrels as short as 14.5" for .308 WIN.

Under no circumstances shall AAC be responsible for incidental or consequential damages with respect to economic loss or injury to property, whether as a result of express or implied warranty, negligence, or otherwise. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply to you. AAC will not be responsible for the results of ordinary wear and tear, careless or criminal handling, neglect, corrosion, unauthorized or improper installation or mounting on firearms, unauthorized or improper modifications, including modifications using non-AAC or otherwise incompatible parts, unauthorized or improper repairs or adjustments, use of improper, substandard, reloaded, or defective ammunition, or other unauthorized or unreasonable use. This warranty gives you legal rights, and you may also have other rights which vary from state to state.

If your AAC silencer is not covered under this warranty for whatever reason, you nevertheless may be eligible to purchase a replacement silencer for half of the current Manufacturer's Suggested Retail Price (MSRP) for the same or similar model silencer plus any transfer fees and the cost of the NFA tax stamp. Please call AAC Customer Service at 1-800-581-1610 for more information and eligibility requirements.

WARRANTY CLAIMS

To initiate a Warranty claim, call AAC Customer Service at 1-800-581-1610, Monday through Friday, 9am - 5pm CST. Customer service will issue an RMA number to allow for the return of the silencer or silencer part. Warranty claims must have this RMA filled out and included in the box with the silencer or silencer part. The returned item must be shipped using the prepaid label our representative emails to you. AAC will pay shipping and insurance charges for the return of a silencer or silencer part to its owner or FFL if the related claim is a proper claim for warranty work. If AAC is unable to repair any silencer or any serialized silencer part, a new replacement one will be provided, but it must be shipped to an FFL/SOT for transfer back to the customer. At which time another Form 4 process will be required. AAC will not be responsible for transfer fees at the FFL or the cost of the NFA tax stamp.

ADVANCED ARMAMENT CORPORATION-BRANDED PRODUCTS MANUFACTURED PRIOR TO NOVEMBER 1, 2021

Advanced Armament Corporation-branded silencers or parts manufactured prior to November 1, 2021, were not manufactured by Advanced Armament Company. Accordingly, Advanced Armament Company is unable to honor any warranties for any Advanced Armament Corporation -branded products that were manufactured prior to November 1, 2021. However, Advanced Armament Company will service such products for a fee. Advanced Armament Company acquired the rights to use the Advanced Armament Corporation brand and associated intellectual property in conjunction with the Remington Outdoor Company bankruptcy proceeding. AAC did not acquire any silencers associated with the Advanced Armament Corporation brand from Remington Outdoor Company. Most liabilities, including warranty claims, were also discharged in the bankruptcy proceeding. Accordingly, AAC is unable to honor any warranties for any Advanced Armament Corporation-branded products that were manufactured prior to November 1, 2021. However, AAC can service such products for a fee. Also, if you properly upgrade any silencer using new AAC parts manufactured on or after November 1, 2021, then those new parts would be covered by the warranty described above.

For more information about servicing or upgrading AAC-branded silencers manufactured prior to November 1, 2021, please call AAC Customer Service at 1-800-581-1610, Monday through Friday, 9am - 5pm CST.
